WATED STATES DISTRICT COURT IN BANKRUPTCY. Important Decision. Before Judge Blatchford.

in the Matter of Edward S. Stokes, Bankrupt.— this case, referred to Register Ketchum, and aped back to Judge Blatchford, the court yesterday dered decision. The case turns upon a contest

mendered decision. The case turns upon a contested claim put in on a day the bankrupt was not
aware had been fixed upon for a meeting of his credturn. The Register states that on the 13th of March,
the day notified, one Jenks Budiong appeared before
him and claimed to be a creditor of the bankrupt in
the sum of \$31,383 51, with interest from January,
1866, and made proof thereof. The bankrupt deposes
that he does not owe Budiong that sum nor any sum.
A second party, named Perrin, also claims to be a
creditor with Budiong in the case.

The Register, in submitting the case to the
Judge, said:—"The creditors showed cause, and insisted that only the judge, upon notice, could entertain this motion, and upon hearing in open court, or
after a reference to take the testimony, this application not being unopposed, and so not being chamber
business, such as the Register, under the roles and
erders, might hear or direct, I was of opinion that
the objection on the part of the creditors was well
taken, and counsel for the bankrupt then asked to
have the question certified to the court." To this
Judge Blatchford appended his approval, saying:—
"The Register is correct in his views"—by which the
application of the bankrupt is refused.

The Eric Railroad War-The Case Before Another Referee-Examination Touching Judge Barnard's Partiality on the Bench. Before Mr. Redfield, Referee,

The Eric Railway Company vs. Marshall B. Champlain, and the Eric Rathbay Company vs. Cornelius Vanderbill and Others.—This complicated case was up yesterday morning in one of the new and unexpected phases which it is almost daily exhibiting. An examination was held before Mr. Redfield, referee, touching Judge Barnard's partiality on the bench in the assignment of reference cases. The only witness examined was James H. Coleman, who testi-

Q. Under what circumstances did you make the acquaintance of the Hon. George G. Barnard, Justice of the Supreme Court? A. My impression is that I became acquainted with Judge Barnard through a letter of introduction from Mr. P. Cagger, of Albany, with whom I studied law; that was in the early part of 1863.

Q. When did you become intimate with Judge Barnard? A. I should say somewhere after 1864 or 1865, er about that time.

Q. Have you since that time been on most intimate terms with him? A. I have been quite intimate with lam.

Please state in what way while on the bench he has manifested his partiality for you as an attorney practising in the Supreme Court? A. He has sent me references.

practising in the Supreme Court? A. He has sent me references.

Q. Did he do so of his accord or on request? A. He did so first at the request of Peter Cagger, General Daniel E. Sickles, and, I think, Senator Bradley, at first on request and afterwards he sent for me of his own accord; I don't think I have ever asked Judge Barnard in my life to send me a reference except on cases where the parties in the action consented to my appointment; on the contrary, for over a year ago I stated to the Judge that I didn't care to have any.

Q. What did the Judge say to that suggestion? A. Peon't remember what he said.

Q. Did he send you any afterwards? A. Yes, sir.

Q. Did you refuse to act in any of them? A. Yes, in two or three.

Q. Can you state more about how many in number the references were to two or three of which you objected? A. I should state as my impression that pernaps they number about thirty; of course I cannot state with any degree of accuracy.

Q. About how many references in all did he send you? A. I cannot state the number.

Q. How were your fees in those references settled or the amount fixed? A. By making out a bill in the office for what was a fair compensation and presenting the bill, and they would pay it; no bill of mine ever was questioned.

Q. Has Judge Barnard nothing to do with the lowance or settlement of your bills? A. I can rear most positively he never has; I have generally ked the attorney what was fair and been guided that.

CONFERENCE OF PRIENDS OF INDUSTRY .- A CHCUIAT, med by Peter Cooper, as President of the American ndustrial League, invites a conference of the friends of American industry, at the Metropolian Hotel, this city, on Tuesday, 28th inst. The convention will erganize at noon, and proceed to discuss questions in connection with the revision of the tariff. Matters pertaining to the enforcement of economy and integrity in the administration of the public revenues will also be brought under consideration.

A New Discovery for Lighting Public Tro-

was made some time since by a French chemist, who was experimenting with the view of being able to take photographs at night. In the course of his experiments he hit upon a new and brilliant light of mense luminosity. The light produced is of a clear mease luminosity. The light produced is of a clear white, somewhat similar to that produced by the monobeams, and of such brilliancy that in the open air a person can read distinctly by its aid. The given however, is very strong, and, it is thought it will be difficult to modify it sufficiently to use in dwellings, assembly halls or theatres, but for the jumpose of lighting streets and public thoroughfares it will be a considerable improvement on the present system of lighting by gas. The combustion of ordinary gas by oxygen is the principal secret of the process. Recent experiments in Paris have been tried with great success, and its economy of expense in burning is considerably less than that of coal gas. Heaves, Stevens, French and Sterns have recently arrived in this city from France, and propose making experiments, with a view to its introduction here.

LAURENS STREET TO BE WIDENED.—The resoluti of the Common Council providing for the widening of Laurens street twenty-five feet on the westerly side, from Amity to Canal street, and extending it through Washington square to Pifth avenue, has been officially approved by the Mayor. The proposed improvement virtually extends Fifth avenue to Canal street. It ought to have been opened to the Battery, as A. T. Stewart and other property holders on Broadway suggested when the question of widening Laurens street was formally discussed before the Street Committee of the Board of Aldermen in the month of January, by parties interested in opening up a new avenue to commence through the heart of the city. Had the thoroughfare been extended to the Battery a street parallel to Broadway would have been made that would have greatly accommodated the leading business districts of the city. through Washington square to Fifth avenue, has been

SUDDEN DEATHS .- Patrick Heavey, aged thirty-five, dropped down dead in the grocery of James Barlow, at 88 Greenwich street, about two o'clock yesterday afternoon. Deceased was employed in the greecry.

ALLEGED HOMICIDE.—Coroner Keenan was notified

yesterday that Timothy Buckley, a sailor belonging to the United States ship Vermont, had died at Bellevue Hospital from the effects of a stab wound received on the 25th ult, at the hands of Patrick Darcelved on the 25th ult, at the hands of Patrick Darcelv, his shipmate. It is alleged that the prisoner evidently had no intention of wounding his friend, as they were on the most friendly terms. The inquest will be held to-day.

LABORER SUPPOCATED .- Yesterday morning, while Timothy Murphy, a laborer, was at work digging away an embankment in Seventy-ninth street, between avenue A and First avenue, a portion of the earth above him gave way and completely buried him. His fellow workmen labored hard to dig him out expeditiously, but death had ensued before he was found. Coroner Rollins held an inquest over the body and the jury rendered a verdict in accordance with the facts.

SUICIDE BY A GERMAN.-Coroner Rollins was no tified yesterday to hold an inquest at the New York Hospital over the remains of Theodore Zinner, a German, thirty years of age, and a drug clerk for Dr. Rosenberger at 163 avenue A, who committed suicide on Thursday night in the Bowery, near the theatre, by swallowing morphine. The motive of deceased has not yet transpired. The inquest will be held to-day.

CHILD MURDER .- An inquest was held yesterday Schirmer, over the remains of an infant found on a pile of bricks in Tenth street, near Pourth avenue.

As the post mortem examination by Dr. Wettengeli showed that death was the result of asphyxia, the jury rendered a verdict of infanticide committed by unknown persons.

NOT DEAD YET .- The report that Catharine Kellahar, the woman who was shockingly burned a few days ago by Margaret Regan, at 48 Cherry street, was dead, proves to be a premature utterance. Coroner Keenan visited Bellevue Hospital yesterday and found Catharine alive and doing well. He therefore released Margaret from his custody, as he had no jurisdiction. The injured woman will recover.

CHARGE OF LARCENY BY A CARTMAN - A cartman who gave his name as Thomas Hamilton was arrested and brought before Justice Dodge yesterday on the charge of stealing a gold watch valued at \$126 and \$26 in bank notes. He was arrested on the complaint of Harriet Irving, of No. 349 Tenth avenue, by whom he had been employed to remove furniture from the above number; but while in her rooms, it is said, he took the property in question. One of the parties is still at large, and Dononhue yesterday pleaded not guilty to the charge preferred against him. He is also awaiting trial on a similar complaint, for which he was arrested on the 5th Inst. Jefferson Market Police Court. The complaint sets

Burnham then represented the piano as really worth \$600, and as a rossewood one, by which means and representations the deponent had been induced to buy said piano. She further alleged that she had since ascertained that the piano was not a rossewood one and not worth the amount specified by the accused. She also purchased other articles at the same sale, and had ascertained that they did not bear out the representations made by Burnham. The magistrate granted a warrant for the arrest of the auctioneer, and he was yesterday taken into custody by Captain Jourwas yesterday taken into custody by Captain Jour-dan and detective Wooldridge, of the Sixth precinct. As Mr. Wels was well acquainted with the elder Bock he believed the statement made by Conrad, and accordingly gave him 250 floring [\$125], and accepted the draft tendered by Bock. The draft was subsequently forwarded to the father who returned the same unpaid, hence the complaint against Bock. Captain Jourdan and detective Wooldridge, of the Sixth ward, took the warrant, but the accused was arrested yesterday by the Twenty-second precinct police on suspicion. Bock was arraigned before Justice Dowling during the afternoon and remanded for examination.

POLITICAL INTELLIGENCE

North Carolina

BLECTION APRIL 21, 22, 23. The political canvass in North Carolina exceeds in excitement that in any other Southern State. There is a split among the radicals, which, if at all general, is likely to ensure the defeat of the radical ticket. The registration last year was, whites, 103,060; blacks, 71,657. Under the revision, the whites have largely increased in the number registered over the blacks. The candidates are as follows :-

Mr. Holden has been accused of being identified

with both Union and rebel sentiments during war. He is said to have been the first to suggest the the assassination of Lincoln, and at the same time it is known that his office was sacked by a regiment of rebel soldiers for the alteged expression of anti-Southern sentiments. He is a very strong man politically in the State, and under ordinary circumstances his election might be set down as certain. The hue and cry against him seems at this distance to be more actuated by personal, if not sordid motives, than any patriotic impulses. The independent radical who is running against him is the United States Marshal for North Carolina, and, if we mistake not, is from New Hampshire, while Holden is a native of North Carolina. Mr. Ashe, the conserva tive candidate, belongs to one of the oldest families in the State—one identified with the earliest revolutionary struggles. Two of the name have represented the State in Congress. The present candidate was a Representative and Senator in the Confederate Congress.

South Carolina.

The following is a copy of a brief address to the colored citizens of South Carolina, signed by "seven colored men from the Camp Ground," and published in the Columbia, S. C., Phaniz, April 15:-"A few days ago two white men came among us, who live near the Camp Ground. They gave us tickets to bacon, if we voted the republican ticket. The ticket given us was headed 'Commissary Department,' and signed Henry Smith. Seven of us came to Columbia Tuesday, to look after our corn and bacon. We presented our tickets, and they laughed at us. Thank God, we have not voted yet. To-day, seven more votes will go in for the democratic tick-et. Our old friends, the white people, told us we were deceived. We refused to believe them; we trusted the Yankee people, and believed in their corn and bacon tickets. We have tried and they have not stuck up to their promises. We are going to vote with our old friends, and we advise you to do

ELECTION APRIL 20, 21, 22, 23, 24,

Georgia will commence voting on Monday next-The contest is very warm and spirited, with the chances, at the present writing, decidedly in favor of the conservatives. The following are the candidates:-GOVERNOR.

Radical.
Robert B. Bullock. Conservative. John B. Gordon. Dist.,
2—Nelson Tift.
3—P. W. Alexander.
4—Samuel F. Gove.
5—Henry W. Hilliard (declines).
6—John H. Christy.
7—P. M. B. Young.
J. W. Clift.
R. H. Whiteley.
Win. P. Edwards.
O. A. Lochtrane.
Charles H. Prince.
John A. Winpy.
James Atkins. Dist. Henry S. Fitch.

In the last election there were registered 95,000 white and 93,000 colored voters. The white majority has been undoubtedly increased by the late revision Under these circumstances the reconstruction party relies upon an important element of white support, due to the "relief" measures of the Convention, and to the location of the capital in Atlanta. Bullock, the radical nominee for Governor, is a native of New York, formerly manager of a telegraph office in Utica we believe, but a resident in Georgia before and during the war. His opponent was a general in the Confederate army, very popular among the young men in the State, and gathers around him all the solid elements opposed to negro supremacy. In regard to the conservative ninees for Congress we have the following re ports:-First district, H. S. Fltch, United States District Attorney for the State, has been selected. Colonel Pitch is a Northern man by birth, a thorough democrat and fully identified with the people of his adopted State. He has been living in Georgia for nearly three years, has purchased property there, and, with his family around him, has cast his lot for district, Nelson Tift, who is widely and most favorably known throughout Southern and Southwestern Georgia as an Intelligent, enterprising and useful citizen. Colonel Tift is a gentle man of tine ability, and has had much experience in the Legislature of Georgia. He is thoroughly acquainted with the wants of his section of the State and will make a valuable and useful member of Congress. Third district-Mr. P. W. Alexander. His friends feel assured that no better selection could have been made in the district, embracing as it does some of the brightest intellects of the State or of the South. Fourth district-Mr. O. A. Lochrane, is pronounced a witty, versatile and facile son of Erin slightly spread eagle. It is confidently asserted that he will be elected, and if the editor of the not mistaken, he will be permitted to take his seat, and a front one at that. In the Fifth district we give the name of Henry W. Hilliard as the democratic candidate. It is reported, however, that Mr. Hilliard declines the honor. We presume this in Congress during the Mexican war as a repre sentative from Alabama and Chairman of the Committee on Military Affairs. He removed from Alabama some time ago and settled with his family in Georgia. Sixth district—Mr. J. H. Christy, editor of the Athens Watchman, is the candidate. He is a strong man in Northeastern Georgia, and his election is regarded as almost certain. Mr. Christy is a self-made man and an able and forcible writer. General P. M. B. Young of Condistrict. He was during the greater part of the war under Stuart in the army of Northern Virginia. In this district the whites are largely in the majority, and it is presumed that General Young will be elected. The question of his admission into Congress

Judge Jacob R. Davis, a moderate republican, and Augustus Embree, a colored man, are also running for Congress in the First district.

LETTER FROM JUDGE INWIN. TO THE VOTERS OF GEORGIA:-The sudden withdrawal of my name as a candidate for the office of Governor at the approaching election would seem to require some explanation from me. As many of you personally know, I was urgently solicited to become a candidate by leadspective of political differences or former party alignments. Before announcing my name I carefully examined the Reconstruction acts, conferred with intelligent members of the Boards of Regis-tration, and consulted the ablest counsel accesable to me as to my eligibility for the omee, and being satisfied that I was eligible my name was placed before the people as a candidate. I yielded to the urgent and repeated solicitations to become a candidate, with the hepe, and under the assurance, that such a course on my part would probably harmonize and unite the various and discordant elements on the issues now disturbing the public mind, and aid in establishing law, order and good government. I felt a grateful pride in the fact that the announcement of my name as a candidate for Governor of Georgia was responded to from every part of the State in a manner that gave unmistakable indications of my success; but having been officially informed that Major General Meade did not conceive me eligible for the office, and that it I should be elected he would fed compelled to decline permitting me to qualify, I did not feel willing to embarrass the people of Georgia by continuing longer in the field. Under these circumbiances I promptly withdrew from the candidacy, in arder to give you an opportunity of uniting on some one whose eligibility was unquestionable. I understand that the name of John B. Gor-

don, of the county of Fulton (whose eligibility is said to be concecled by General Meade), has been announced as a candidate for Governor. I haveknown General Gordon for years; he is a gentleman of acknowledged ability, unquestionable patriotism and irreproachable character, eminently worthy of your confidence and support. No matter whether he be for or against the ratification of the constitution submitted to you, if he should be elected, and the constitution should be ratified, he will take an oath to support it, and no man who knows John B. Gordon can doubt for one moment that he would administer the government according to the constitution and laws, and for the real weifare and permanent good of the entire people, irrespective of partylsin or color. Sincerely thanking the people of Georgia for their expressions of confidence and pledges of support while I was a candidate, and earnestly-hoping that our troubles may soon terminate in the establishment of peace, order and sound constitutional government, I am your obedient servant and fellow chizen,

The Jackson (Miss.) Clarion, April 9, expects the radical scheme to give the negroes control of the Legislature, and says:—"In no instance has this spirit been more signally displayed than in the bill to apportion Senators and Representatives among the several counties of the State. To verify this statement the Clarion refers to some of the features of this measure as illustrative of the character of the whole scheme. By the census of 1860 Hinds county had a total population of 25.640. It is largely black, and she is given four representatives. By the same census Tishomingo has a total population of 21,077, with the whites in the ascendant. She has only two representatives. Washington, a negro county, has a population of 13,308. She is given three representatives. Tippah, a white county, has a population of 19,381. She is given but two representatives. In the Senatorial apportionment Holmes, a negro county, has a total population of 16,116. To her is assigned one Senator. On the other hand, Attala, Leake and Neshoba, white counties, with a combined population of 29,367, are thrown into the same district and given but one enator. Madison, a negro county, with a population of 18,245, is given one Senator, while Lauderdale and Kemper, white counties, with a population of 25,639, are made one district. To Yazoo, having a negro population largely in the excess of the whites, and a total of 16,263, one Senator is given; while the combined counties of Tishomingo and Itawamba, with a population more than double that of Yazoo (Tishomnigo alone exceeds it by 3,000), are thrown into a

single district and allowed but one Senator."

And thus we might proceed, continues the Clarlon, to the end of the list, and in every instance the same infamous motive to put the white people of the State completely under the rule and in the power of the negro race, would be established.

Major Bristor, State Treasurer, is normany announced in the Kingwood Journal as a candidate

The radical republicans have put in nomination the following State ticket to be supported at the coming election:-For Governor, Samuel Walker, of Key West; for Lieutenant Governor, Wm. H. Christy, editor of Florida Times; for member of Congress, Colonel Liberty Billings, of Fernandina.

ORLEANS COUNTY.—The democrats of Albion have elected their entire ticket by double the majorities of any previous year. The democrats of Orleans

of any previous year. The democrats of Orleans county have carried four of the nine Supervisors—a gain of two over last year and three over the last eight or ten years.

NIAGARA COUNTY.—The democratic majority of last fall has been very largely increased. The Board of Supervisors, as elected, will stand ten democrats to six republicans—a democratic gain of four. In Lockport there was no local issue at stake—the only questions being national issues—the radicals relying on the "popularity" of General Grant. The result is thus announced by the Lockport Union:—The victory is complete, every democrat is elected from Mayor to Inspectors of Election; even the Third ward, known as the Massachusetts of radicalsm, throws off the they oke and enlists under the democratic banner. These results give us a Mayor and seven Aldermen in the Common Council.

Political Miscellany.

Mayor Thomas, of St. Louis, republican, refuses to give a certificate of election to Mr. Mueller, the republican candidate for Street Commissioner, on the ground that the democratic candidate, Mr. Hall, is entitled to it. Mr. Heath, the City Register, was very indignant at this decision, and tore up the certificate which the Mayor handed him to issue to Mr. Hall. The ease will go to the courts. Mr. J. Q. A. Fellows, formerly of Massachusetts, is

the conservative candidate for Congress from the Third district of Louisiana.

The Raleigh (N. C.) Republican has received re-

liable information from Washington the past week

that W. W. Holden will not be pardoned, and in that event every vote cast for him will be a vote lost, as he could not take his seat if he received every vote cast in the State.
Mr. F. A. Parsons, of Johnson county, Ga., gives

the following reasons why he cannot consent to stand as the conservative candidate for Congress from the First district:—"1. I am ineligible, Congress having deprived me of the right hitherto enjoyed in this country by freemen. 2. I am devoting my entire energies to making corn and cotton, and feel that I can best discharge my duty as a citizen of the South by thus aiding to build up her fallen fortunes. 3. The friends with whom I agree in opinion and cheerfully act have already met in convention and brought out a candidate who is well qualified for the office, and whom I will cheerfully

The following dates indicate when the United States Senatorial terms will expire in the now unreconstructed States:—Alabama, 1871, 1873; Arkansas, 1871, 1873; Georgia, 1871, 1873; Louislana, 1871, 1873; Mississippt, 1869, 1871; North Carolina, 1871, 1873; South Carolina, 1871, 1873; Texas, 1869, 1871; Virginia, 1869, 1871; Fiorida, 1869, 1873.

The New Haven Register says the "burying of the hatchet" by General Grant and General Butler is denied. The report arose merely from a casual re-mark by the latter that he would like to bury a hatchet in the head of the former, which is a very different thing "when you come to look at it."

pendent candidate for Congress in the Sixth district of North Carolina, has withdrawn in favor of Mr. Nathaniel Boyden, the conservative candidate. Judge Jewett is a prominent candidate to succeed

Senator Wade in case of a vacancy. Among the names mentioned in connection with the filling of the vacancy, if left to the Governor, are Robert C. Schenck and John A. Bingham. The Nashville (Tenn.) Press calls on either Senator

Rodgers or General Cooper to withdraw as republi-can candidate for Congress from the State at large. It says if both persist in running, an ingiorious defeat awaits the republican ticket. dereat awaits the republican ticket.

The railroads terminating at Chicago will pass delegates to and from the Republican National Convention free of charge upon the application of the chairman of each State Republican Central Committee for a sufficient number of tickets for their respective delegations.

spective delegations. Governor Brown, of Georgia, has just returned to Atlanta from a speech making tour. He says the election of Bullock is by no means a question of doubt, and that the great object of the opposition is to secure a decided majority in the Legislature and thereby practically defeat the administration of Bul-

Governor Brownlow, of Tennessee, says he will not be a candidate before the Chicago Convention for any nomination, preferring six years in the United States Senate.

Edward Kingsley and Alensee W. Beard have been now pre-

elected delegates to the Chicago Convention by the republicans of the Third Congresional district, Maschusetts, and Estes Howe and Thomas Russell (the latter Collector of the port) from Fourth district.

THE TURF.

Union Course, L. I .- Trotting. A number of the old sports assembled at the Union Course yesterday afternoon to witness the first troi Course yesterday afternoon to witness the first trot of the season. The horses entered did not put in an appearance, with the exception of Nodine's, who brought his nag on the track when he discovered that none of the others were in the neighborhood. This was sharp practice; but the proprietor, having met with it often, submitted to it like a Christian, and the assembled admirers of trotting had to "get up and get" for home. The first trot of the season did not take place.
